6. [REDACTED] THIRD AGENCY [REDACTED] DDO, called to discuss a matter which has been the topic of discussion between State Department and Agency representatives concerning anticipated contact by State with Senators Hubert Humphrey (D., Minn.) and Daniel K. Inouye (D., Hawaii) and Representative Otto Passman (D., La.)

25X1A concerning a [REDACTED] State is concerned that contacts with these members may raise questions regarding recent findings made by the President under the Foreign Assistance Act and wondered how this could best be handled. The suggestion had been made that if these members raise a question in this subject area they be referred to the Agency. I suggested as an alternative that State Department contact the Chairmen of the committees involved (House and Senate Appropriations and House International Relations and Senate Foreign Relations) in advance and obtain their approval of State's merely referring these members to those Committee Chairmen if the question arises. I subsequently cleared this approach with the Director and so notified [REDACTED]

7. [REDACTED] LIAISON Contacted Russ Rourke, in the office of John O. Marsh, Counsellor to the President, to alert him to the status of our dealings with the NSC staff on the Director's testimony on SALT for Senator Henry Jackson's (D., Wash.) Arms Control Subcommittee of Senate Armed Services. Rourke asked that we let him know when the transcript goes to Armed Services. Later in the day, I told him that the transcripts had gone and we had gotten some feedback from Richard Perle, of Senator Jackson's office, and we would be dealing with him regarding the deletions. I also mentioned that we were in close touch with Les Janka, of the NSC staff, on this.

8. [REDACTED] LIAISON Jim Gehrig, on the staff of the Senate Aeronautical and Space Sciences Committee, called to say that a new Staff Director, Gilbert Keyes, has recently been appointed and Gehrig would like to arrange a "thorough briefing" for him. He said he hated to tie up Carl Duckett and whoever we thought were competent persons to brief him were perfectly acceptable to them. He also indicated that he would like to talk with me in the next day or two regarding some thoughts they had about sending a letter to NASA which has some repercussions as far as the Agency is concerned. Gehrig wanted to talk to us before sending such a letter. I told him I would drop by to see him probably on Monday, meanwhile we will get in touch with Mr. Duckett's people to set up a briefing on Soviet space missiles and related programs for Keyes.
